

P-LINE Range

Winter Pipe Protection

Plug-in & Heat-Safe
Winter Protection Kits
with in line temperature switch

- Safe and Simple to fit
- Energy efficient - In line temperature switch
- Safety - Self regulating temperature safe heater
- Suitable for all pipe materials.

In Your Kit

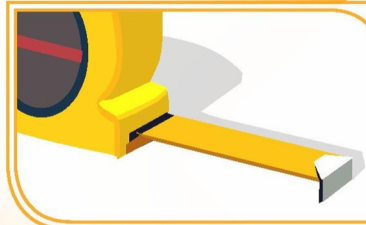

- terminated heater with inbuilt temperature switch
- 2m tail and plug (if applicable)
- Adhesive aluminum fixing tape
- Instructions

Stop Pipes freezing:

- Garage
- Loft
- Outhouse
- Holiday home
- Caravan
- Condensing Boiler outlet
- Stables

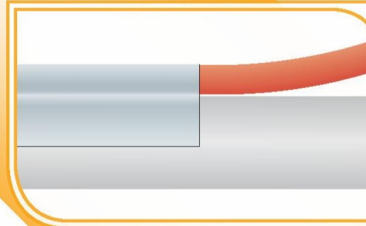

Other uses include:

- Preventing icing in gutters
- Preventing pathways freezing
- Preventing ponds icing over
- Protecting plants

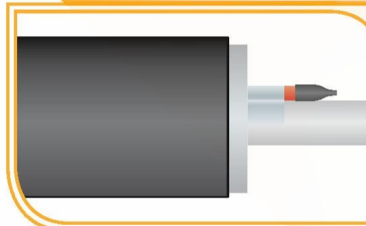

1 Plan

- a) Measure your pipe and select the kit to suit.
- b) Ensure you have an adequate electrical supply
- c) If outdoors ensure your electrical socket is weatherproof

2 Fit Heater

Apply the aluminum adhesive tape straight along the pipe. Run the heating cable straight on the pipe and apply aluminum adhesive tape along its length.

3 Cover with Insulation

Apply Thermal insulation and seal down the joints with tape provided

4 Heatsafe

Place the caution labels on the outer surface to ensure a safe installation.

5 Plug In

Plug in our heater to your supply. **Switch on** – your protected for the winter.
Note if outdoors this must be a weatherproof unit.
